

Information about Business Japanese Course

Since the establishment of our school in 1983, we have been working hard on teaching Japanese to foreigners for nearly 40 years in Tokyo. Going forward we open a new course called the Business Japanese Course.

This Business Japanese Course is for foreigners who are working or want to work in Japan, and aiming to get “Specified skilled worker VISA”. This VISA is compatible for people working in nursing, construction, Building cleaning, food service fields.

The course is useful for business conversation within the company and preparing for the Japanese-Language Proficiency Test (JLPT) level N4 which is needed to get “Specified skilled worker (I) VISA”.

We are looking forward to receiving contacts from companies, organizations, individuals that are certified as Registered Support Organizations or Accepting Organizations. We also welcome other companies.

Please feel free to contact us about the details.
